

1861 - 1862

University of Queen's College,

KINGSTON, CANADA.

FACULTY OF MEDICINE

DEGREE OF M. D.

A Candidate for the Degree of M. D., must have been engaged in Medical and Surgical study for four years,—the Medical Session of each year, or *Annus Medicus*, being constituted by Matriculation and attendance on full courses of Lectures in at least two classes, by separate Professors.

One year's instruction under a respectable Medical Practitioner, previous to attendance on Lectures, and duly certified to the satisfaction of the Medical Faculty prior to the student entering upon his studies, will be received as equivalent to a year's College attendance, and will, in such cases, constitute the first *Annus Medicus*.

The Candidate must have given regular attendance on full

Courses of Instruction in the following departments of Medical science, for the periods stated :—

1. Anatomy,	} Each, two courses of six months.
2. Practical Anatomy,	
3. Principles and Practice of Surgery,	
4. Theory and Practice of Medicine,	
5. Materia Medica and Pharmacy,	
6. Chemistry,	
7. Obstetrics and Diseases of Women and Children,	
8. Institutes of Medicine,	
Clinical Medicine,	} Two courses of three months each, or one of six months.
Clinical Surgery,	
Hospital,	} Twelve months.

The above course of study may have been pursued either wholly in Queen's College, or partly in Queen's College, and partly in some other recognized Medical School. In the latter case, at least one full session must have been spent in Queen's College, during which, at least four of the above named classes must have been attended.

Certificates of attendance on Lectures are received from Incorporated Medical Schools in the British Dominions, and others recognized by the British Universities and Licensing Colleges. Other certificates of attendance on Lectures will be admitted at the discretion of the Faculty.

Every Candidate must deliver before 15th February of the year in which he proposes to graduate, to the Secretary of the Faculty of Medicine, a Declaration under his own hand that he is 21 years of age, or will be so before the day of graduation, accompanied by a certificate of good moral character ; a statement of his studies, literary and scientific as well as Medical, with proper certificates ; and a Thesis composed by himself, to be approved by the Medical Faculty.

The Candidate must have passed a Matriculation Examination in Classics on one or more of the following works :— Caesar's Commentaries, the London Pharmacopeia or Gregory's Conspectus. This Examination will take place either

during the currency of the first Session, or it may be postponed till the end of the second Session, provided the Student attends the Latin Class in the Faculty of Arts one Session. The Classical Examination is not required where the Student produces a certificate of having passed a similar or equivalent Matriculation Examination at any other College.

Each Candidate shall be examined both in writing and *viva voce*,—first, on Anatomy, Materia Medica, Institutes of Medicine and Chemistry, these subjects constituting the Primary Examination ;” secondly, on Surgery, Theory and Practice of Medicine, Obstetrics, Clinical Medicine, and Clinical Surgery, which are the subjects of “ Final Examination.”

Students who profess themselves ready to submit to the Primary Examination, that is, to an examination on the first division of these subjects, at the end of their third year, may be admitted to examination at that time. The Final Examination, embracing the second division of subjects, shall not take place until the candidate has completed his fourth or last session.

The Primary and Final Examinations will commence on the 2nd of March in each year, or the first lawful day thereafter, and be concluded before the last Thursday of March, which is the day fixed for Graduation.

Candidates who distinguish themselves at the Primary and Final Examinations, will receive their Degree with honours.

The Graduation Fee is \$20.

The University of Queen's College being incorporated by Royal Charter, Graduates in Medicine are entitled to obtain the Provincial License, to practice Physic, Surgery, and Midwifery, by simply presenting their Diploma to a District Judge, identifying themselves on oath as the persons named therein, and paying \$4, the fee now paid by British Graduates in Medicine, to the Provincial Secretary for a License to practice in the Province.

FACULTY OF MEDICINE.

JOHN R. DICKSON, M. D., *Vice-President.*

THE SESSION COMMENCES ON THE FIRST WEDNESDAY OF OCTOBER, AND ENDS ON THE LAST THURSDAY OF MARCH, BEING THE DAY FIXED FOR THE MEDICAL GRADUATION.

Carpenter's Physiology.
Jones and Sieveking's Pathology.
Stille's Therapeutics.

VIII. HOSPITAL.

The Kingston General Hospital may be attended by Students during their whole period of study on payment of \$4 at the commencement of the course.

A course of Lectures on Clinical Medicine and one on Clinical Surgery will be delivered in theatre of the Hospital during the Session.

Students and Under-graduates in Medicine pay an Annual Matriculation Fee of \$2. Payment of this fee entitles to the use of the Library, which is open daily, from 2 to 3 o'clock, P. M.

The fees for the Medical Classes are \$12 for each class of five lectures a week, and six month's duration, payable on entering the class at the commencement of the session. The fees of classes of fewer lectures and shorter duration, will be proportionately less. A student who has attended two courses in any Medical Class in Queen's College, is entitled to free attendance in such class, at any subsequent time.

As a general rule, there are weekly examinations in all the classes.

Any additional information may be obtained on application to

GEORGE LAWSON, PH D.,
Secretary.
